WORK EXPERIENCE

MERN Stack Developer Kiva Infotech

03/2024 - Present

Achievements/Tasks

- **Developed and deployed three production-ready web applications and admin panels** using the MERN stack, ensuring performance, reliability, and maintainability.
- **Collaborated closely with cross-functional teams** including designers, backend developers, and QA to align on features, architecture, and delivery goals.
- **Integrated scalable RESTful APIs** and implemented responsive, user-friendly interfaces that enhanced the overall user experience under tight project deadlines.
- **Tech:** JavaScript, TypeScript, React, Next.js (14+), Redux, Tailwind CSS, Material-UI, REST APIs, Socket.IO, MongoDB, MySQL, PostgreSQL, GitLab

Software Developer Intern JBS Technology

10/2023 - 02/2024

Achievements/Tasks

- **Designed and developed responsive, cross-device web applications** with a strong emphasis on clean UI/UX, accessibility, and performance.
- **Delivered pixel-perfect frontend implementations** using modern frameworks like React and styling tools such as Tailwind CSS and Shadcn/UI.
- **Collaborated on client-facing projects**, translating Figma and design specifications into high-quality, production-ready interfaces.
- **Tech:** React, JavaScript/TypeScript, Tailwind CSS, Material-UI

EDUCATION

Diploma in Engineering

Shree Tapi Brahmcharyashram sabha college

07/2017 - 02/2021

8.08 CGPA

Web Development | IT Skywin IT Academy

10/2022 - 10/2023

Courses

- Complete the course of Web Development under supervision of Senior Developer from Skywin It Academy.

SKILLS

JavaScript (ES6+)

React

Node.js

MongoDB

Next.js

TypeScript

Express.js

Tailwind CSS

Mui Material-Ui

PERSONAL PROJECTS

MERN Stack Authentication System

- Developed a secure and scalable authentication system using **MERN stack (MongoDB, Express.js, React, Node.js)** with **JWT-based authentication** and refresh token management.
- Implemented **email verification** during user registration and **OTP-based password reset** functionality for enhanced account security.
- Designed and built a **responsive, user-friendly frontend** with **React and Tailwind CSS**, optimized for both desktop and mobile experiences.
- Utilized **bcrypt.js** for password hashing and integrated robust **API validation and error handling** to ensure system reliability and data protection.
- Structured backend using **modular Express.js architecture** with reusable middleware and controller layers, following **RESTful API principles** for maintainability.

E-Commerce Website

- Developed a **modern, scalable e-commerce platform** using **Next.js, React, TypeScript, and MongoDB**, delivering a high-performance and user-friendly shopping experience.
- Integrated **NextAuth** for secure authentication, including **social login, session management**, and **role-based access control**.
- Implemented **Stripe payment gateway** with real-time checkout, secure transaction handling, and webhook integration for order confirmation.
- Built a fully responsive and dynamic UI using **Tailwind CSS, shadcn/ui, and Framer Motion**, enhancing user engagement and cross-device compatibility.
